<b>79</b> 79-21	<b>Engine Oil</b> Oil Cooler and Duct Installation	

Introduction

This Illustrated Parts Catalog (IPC) has been prepared to assist aircraft owners, operators and repair personnel to identify and order parts for the FBA-2C1 and FBA-2C2 aircraft.

Changes to the IPC

There will be revisions, amendments or supplements to this IPC periodically. It is the operators' responsibility to ensure that all the changes to this IPC are incorporated as soon as possible.

At any time a change or addition to the IPC occurs, a new List of Effective Pages will be issued.

Illustrated Parts List

The IPC consists of a series of Illustrated Parts Lists and their corresponding Figures. Individual Figures are tied to their respective Illustrated Parts Lists via the Figure number. The Figure number may be found in the first column (labeled Figure and Index Number) of the Illustrated Parts List.

Parts are identified on the Figures by an index number with the corresponding index number on the Illustrated Parts List under the column headed "Figure and Index Number".

An indenture system is used to indicate which parts belong to each assembly/subassembly. In the following example the Elevator Rocker Assembly C355-1 contains the Elevator Rocker Hub Assembly C354-1 as well as all the pulleys, bolts, nuts, and washers. The Elevator Rocker Hub Assembly C354-1 is designated as a subassembly of C355-1 by indenting the text in the "Description" column. The parts making up C354-1 are further indented to show that they are part of that subassembly.

Figure And Index Number	GROUP <b>Flight Controls</b>		Effect.	Vendor Ident.	Units Per Assy
	MAJOR ASSEMBLY	<b>Elevator Control System Installation</b>			
	PART No.	DESCRIPTION			
13-					
-1	C355-1	Assembly Elevator Rocker			1
	C354-1	Assembly Elevator Rocker Hub			1
-2	C354-2	Tube			1
-3	C354-5	Flange			1
-4	C354-3	Spacer			1
-5	C354-4	Washer			1
-6	MS27640-4	Bearing Ball		AUR	2
-7	MS20220-2	Pulley, Flight Control			2
-8	AN3-11A	Bolt Hex Head 5/16 Dia.			2
-9	MS21083-N5	Nut Self Locking 5/16 Dia.			2
-10	AN960-516	Washer Flat 5/16 Dia.			2

If two assemblies are made up of a majority of identical parts or the assemblies are handed, for example, left and right, the assemblies are listed together with their detail parts listed as common for both assemblies. In this case, only the left or right hand part is indexed and

illustrated. Left hand parts will be noted by LH in their description, right hand parts, RH. If a part is used on one side of the aircraft or on one such assembly, its description is followed by (LH only) or (RH only). In most cases only the left hand part is illustrated but both handed parts will appear in the Illustrated Parts List. The following Illustrated Parts List shows an example of handed assemblies W465 and W466. With the exception of the Bellcranks (A18-1 and A18-2) the majority of the parts are common to both assemblies. The “Units Per Assy” column indicates the number of parts or subassemblies per assembly. In this case the W465 assembly contains 1 W974, 1 W973, 1 W467, 1 W667, 2 W647, 1 W489, 1 AN315-3, 1 MS21042-4, 1 AN960-416, and 1 A18-1 Aileron Bellcrank (LH) subassembly. The right hand Aileron Quadrant W466 would contain the first ten common parts listed previous plus the A18-2 Aileron Bellcrank (RH) subassembly.

Figure And Index Number	GROUP <b>Flight Controls</b>		Effect.	Vendor Ident.	Units Per Assy
	MAJOR ASSEMBLY	<b>Aileron Control System Installation</b>			
	PART No.	DESCRIPTION			
22-	W465	Assembly Aileron Quadrant (LH)			1
	W466	Assembly Aileron Quadrant (RH)			1
-1	W974	Bracket Aileron Quadrant (Top)			1
-2	W973	Bracket Aileron Quadrant (Bottom)			1
-3	W467	Packer			1
-4	W667	Stop Aileron Quadrant			1
-5	W647	Bushing Aileron Quadrant			2
-6	W489	Bolt Stop			1
-7	AN315-3	Nut Plain Hexagon 3/16 Dia.			1
-8	AN4-22A	Bolt Hex-Head ¼ Dia.			1
-9	MS21042-4	Nut Self-Locking ¼ Dia.			1
-10	AN960-416	Washer Flat 3/16 Dia.			1
-11	A18-1	Assembly Aileron Bellcrank (LH)			1
	A18-2	Assembly Aileron Bellcrank (RH)			1
-12	A18-3	Bellcrank (LH)			1
	A18-4	Bellcrank (RH)			1
-13	A17	Housing Bearing			1
-14	MS14102-3K	Bearing Spherical		AUR	1
-15	TSI-0405-04	Bushing Iglide		IGU	2
-16	DW-4K	Bearing Roller		FAF	1

### Page Numbering System

The catalog uses a four digit code to classify systems and components. The code is a modified version of the Air Transport Association of America (ATA), Specification 100 code and Joint Aircraft System/Component (JASC) Code Table. This is the same code used in the Found Aircraft Canada maintenance manuals. The first two digits refer to the chapter/system while the second two digits refer to the subsystem. For example, 27-01, refers to Chapter 27 Flight Controls, subsystem Control Column.

Within each chapter the four digit code is used to define a section and each section begins with page 1, for example, 27-01 Page 1.

**Effectivity**

The information contain in this illustrated parts catalog is applicable to all:

- FBA-2C1 starting at aircraft serial number 28
- FBA-2C2 starting at aircraft serial number 100
- FBA-2C3 starting at aircraft serial number 300
- FBA-2C4 starting at aircraft serial number 4000

although individual assemblies or parts may only be applicable to certain aircraft serial numbers. In particular, the Illustrated Parts List contains a column labeled “Effect.” that is used to determine the aircraft serial number applicability of the assembly or part. If this column is left blank then the assembly or part is applicable to all aircraft serial numbers. An aircraft serial number is entered in this column to show that the particular assembly or part is applicable to all aircraft starting at that particular serial number.

The following Illustrated Parts List is included to show an example of “effectivity”.

Figure And Index Number	GROUP		Effect.	Vendor Ident.	Units Per Assy
	Equipment & Furnishings				
	MAJOR ASSEMBLY	Front Seats Installation (Height Adjustable)			
	PART No.	DESCRIPTION			
1-	N161	Assembly Seat Height Adjustable (Fabric)			
-1	H202-1	Assembly Floor Frame			1
-2	H201-1	Assembly Seat Base			1
-3	H203-1	Assembly Back Rest			1
-4	H30-6	Support Base			1
		Support Base Issue 5	48		1
		Support Base Issue 6	94		1
-5	H30-7	Support Back Rest			1
-6	FOU-101	Cushion Bottom			

Part number H30-6 Support Base is applicable to aircraft serial number 28 to 47, while Issue 5 of this part is applicable to aircraft serial numbers 48 to 93. Issue 6 of the part is applicable to aircraft serial number 94 on.

**Vendor List**

In order to provide the best service possible to owners and operators Found Aircraft Canada has made it possible to purchase many of the parts used on the 2C1/2C2/2C3 & 2C4 from sources other than Found Aircraft Canada. A column labeled “Vendor Ident.” in the Illustrated Parts List will contain a three digit code if it is possible to purchase a part from an alternate source. The following table cross references the code to the vendor.
